

# From Ordinary to ~~Extra~~ordinary

**Modified Pump Panels**  
from Brandon and Clark, Inc.

# Designed with You in mind.

**Making the ordinary extraordinary is what Brandon and Clark does best.**

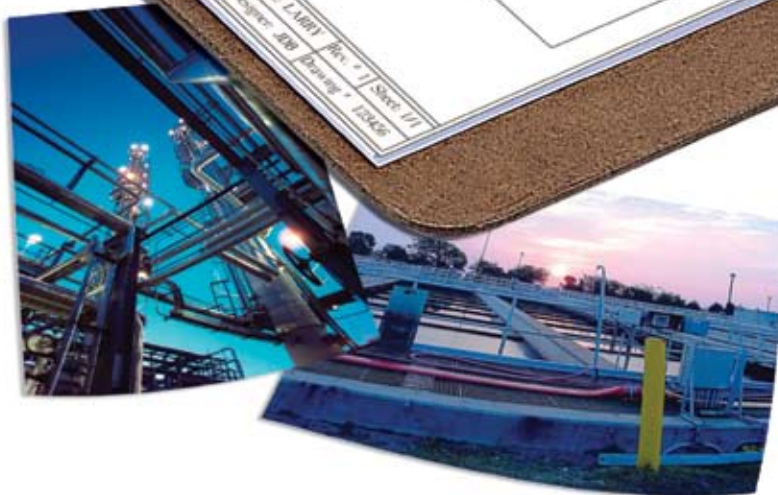

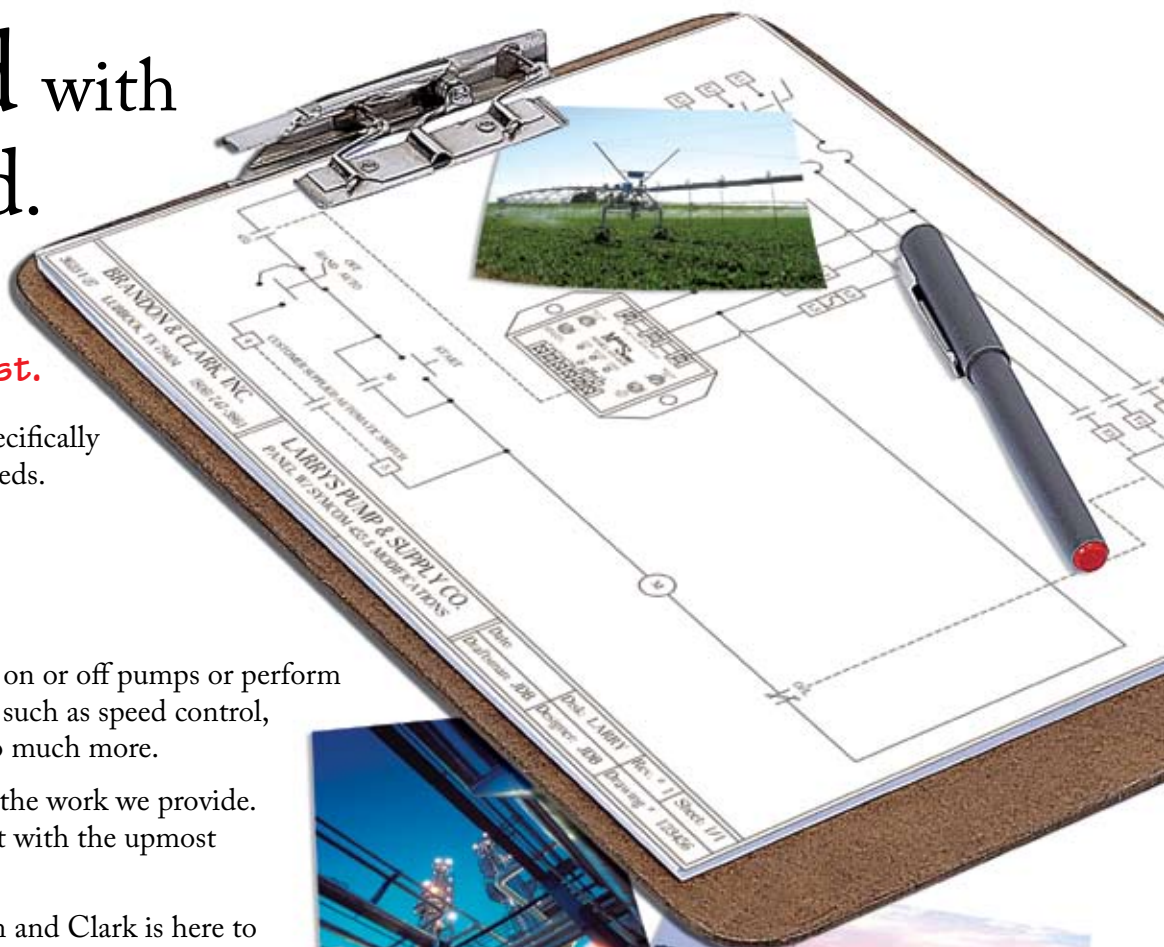

Our modified pump panels are specifically designed to meet your industry needs.

- Irrigation
- Agriculture
- Oil and Gas
- Wastewater Treatment

Our pump panels can simply turn on or off pumps or perform more advanced control operations such as speed control, output pressure monitoring and so much more.

Brandon and Clark takes pride in the work we provide. Each modified pump panel is built with the upmost precision and attention to detail.

Whatever your needs are, Brandon and Clark is here to provide a product that will go beyond ordinary.
