# POWER TRANSFORMER

**Repair - Recondition - Upgrading MVA - Voltage Redesign**

## Experience

Engineering staff with over 30 years experience in Power Transformer design, testing and field service.

Brandon and Clark, Inc.- Providing Energy Systems Solutions Since 1950.

## Types of Equipment

- Rectifying & Specialty Transformers
- Induction & Arc Furnace Transformers
- Single & Three Phase Voltage Regulators
- No Load & Load Tap Changing Transformers
- Mobile Substations
- Oil Filled & Dry Type Industrial Transformers

## Capabilities

- Up to 25 MVA Self-Cooled
- Voltage Ratings Up to 138KV at 650KV BIL
- Rectangular & Circular Designs, Layer, Continuous Disk, Helical & Continuous Transposed Cable Windings

**Brandon & Clark Inc.**  
**Sales - Service - Repair - Installation**

**Electric Motors • Transformers • Controls & Automation • Air Compressors  
Thermal Imaging • Wiring • Balancing • Vibration Analysis**
